My dear Mirza.

with all this regards.

because the notes flagged with interest and appreciation. Time Scientific work is done in Sikuna and what can gladden the hearts of those engaged in it, to a considerable extent, is the appreciation of their gracious Sovereign.

I send herewith printed copies of my tour & other notes and hope that you may find some time to go through them. Some of the notes have been already seen by you in a typed form. and I am sending the printed copies merely to complete the collection.

Besides these notes there are some minutes of mine on some important questions but they are also on the files relating to them. and I have kept no copies of them. I hope however, to be able to make a collection of them. and when I do this. I shall give myself the pleasure of sending a copy for you to see at leisure.
